EMPOWERING Digital Cities

Microsoft CityNext and our partners help cities transform to provide better services and quality of life for their citizens. Our citizen services solutions span citizen portals, support services, and data dashboards. These solutions enable cities to deliver more efficient and effective citizen services by fostering engagement between citizens and city government.

Welcome to the 2018 ConnectivIT Ball!

Your sponsorship of the ConnectivIT Series of Events ensures that local nonprofits are connected to the technology solutions they need to excel. YOU are the catalyst for Apparo's impact:

- Giving youth living in our economic divide the confidence and social capital to reach for their aspirations
- Empowering local food banks to feed more, more effectively
- Enabling victims of child abuse to find care
- Providing support and research to families suffering the devastation of hard medical diagnoses
- And so much more!

Our ConnectivIT theme this year is "Come Fly with Me" – a Frank Sinatra Classic that evokes images of partnerships soaring to new heights and destinations.

"Come Fly with Me" is more than a melody, it's an invitation; an invitation to you, our sponsors and supporters, to join Apparo's vision of Charlotte as a vibrant community where nonprofits have the capacity to serve more, better.

Charlotte is unique in having Apparo, a tech service company for the area's nonprofits. Your commitment to Apparo is a commitment to technology's power to change the world, starting right here in Charlotte. Because of you, we provide more than 425 local nonprofits with the support they need to understand and use technology to empower their service capacities. This means more of the community's most vulnerable individuals get the help they so desperately need, resulting in improved economic opportunity and success for many.

Thank you for accepting our invitation to "Fly" with Apparo and the power of technology. We are excited for the new work ahead and humbled by your steadfast enthusiasm to be part of it.

Gratefully,

A handwritten signature in black ink that reads "Kimberly Lanphear".

At Bank of America, we know that we can only be successful if our employees and customers and the communities we serve have the opportunity to achieve their own vision of success. From developing and nurturing a diverse workforce to addressing societal issues like climate change, gender equality and economic mobility, we are using our capital, expertise and innovation to build a better tomorrow - for our company and our world. Shared success means creating responsible, sustainable growth for us all.

2018 Mission Possible: The Economic Opportunity Award

Helping nonprofits improve economic opportunity in and around Charlotte

Congratulations to the 2018 Mission Possible Award Finalists:

Charlotte Bilingual Preschool

Charlotte Bilingual Preschool prepares Spanish-speaking children for success in school and life by providing dual-language early childhood education, and supporting families with classes to sustain and nurture their child's educational and emotional development. They proposed to implement a student data management system to streamline all student, family, and program data.

Men's Shelter of Charlotte

The Men's Shelter of Charlotte seeks to provide safe emergency shelter while working to end homelessness for each man. They proposed to break up the difficult and lengthy journey from homelessness to affordable housing by implementing an interactive centralized system to walk constituents through housing-related, incentivized tasks.

Promising Pages

Promising Pages is an organization centered on the mission of providing ownership of books to underserved children, and to cultivate a lifelong love of reading through innovative literacy programs and partnerships. They proposed to implement a well-rounded inventory system that tracks all incoming and outgoing books, book donations, drop locations, volunteer hours and registration, book requests, and costs, and allows for reporting and analytics.

Special Thanks to our CIO Judging Panel:

Mike Laurenti, *Ahold Delhaize*

Arvy Rajasekaran, *Ally Financial*

Kevin O'Rourke, *Barnhardt Manufacturing Company*

Cam Faison, *Charlotte Pipe & Foundry*

Rob Watkins, *Compass Group North America*

Josh Jewett, *Dollar Tree, Inc.*

Chris Heck, *Duke Energy*

Detlef Dohmen, *Polypore International L.P. / AsahiKasei*

Kirby Miner, *Sunbelt Rentals*

Theresa Wilson, *Wells Fargo*

2017 Mission Possible Award

Heart Math Tutoring

As the recipient of Apparo's 2017 Mission Possible Award, sponsored by Accenture, Heart Math Tutoring implemented a custom-built platform for pairing students in high-poverty schools with volunteer math tutors and storing useful student and volunteer data. This system now allows Heart Math Tutoring to help more elementary school students build the strong foundation in math and enthusiasm for academics needed for long-term success.

Empowering lives through technology.

At CPI Security, we are proud to support the Apparo ConnectivIT Ball and their efforts to foster innovation in our communities. We invest our time and contributions in partnerships and organizations that are committed to improving and protecting lives. Together, we can innovate the world around us.

The Dell Technologies logo is positioned in the top right corner. It features the word "DELL" in a bold, white, sans-serif font, with a stylized "E" that has three horizontal bars. To the right of "DELL" is the word "Technologies" in a smaller, white, sans-serif font. The background of the entire advertisement is a long-exposure photograph of a city street at night, showing light trails from cars and streetlights, with several tall skyscrapers in the background under a dark sky.

DELL Technologies

It starts with you.

A single idea from a single person can transform the world. Our single idea is giving anyone the technology to drive progress and move us all forward.

Dell Technologies is a proud sponsor of the 2018 Apparo ConnectivIT Ball.

Fulfilling potential

This is the focus of Apparo's ConnectivIT Ball. It brings together local non-profits with Charlotte's CIOs and thought leaders in the tech industry to exchange ideas on leveraging technology to create positive social change. Ideas that will help non-profits run more efficiently in providing services to individuals and families in the Charlotte region.

This is a focus we are proud to support by participating in Apparo's ConnectivIT Ball.

Service Express, Inc.

A BETTER PARTNER FOR DATA CENTER HARDWARE MAINTENANCE

Since 1993, Service Express has been delivering on-site hardware maintenance for mission critical servers. We started as a division of a local IT hardware reseller in Grand Rapids, Michigan, before splitting off and incorporating. Twenty-five years later, our expertise has grown and we have expanded our data center supported products to include IBM, HP, Sun, Dell and ProLiant servers, along with EMC, STK, NetApp, Cisco and Hitachi storage equipment.

800-940-5585 | serviceexpress.com

CUSTOM SOLUTIONS

- Server, Storage and Network Maintenance
- OS Support
- Hardware Sales
- Data Center Relocations
- Asset Recovery

EXPERT SERVICE

- 30 Min. Engineer Call Back
- Knowledgeable **Service Express** Engineers
- Simplified Dispatch Process
- End-of-Life Maintenance
- Warranty Tracking

PARTS WAREHOUSE

Quick access to parts with a complete physical site audit of your equipment. We stock the parts you need locally to keep you up and running.

Can't keep up with service requests? Get ahead. Not a headache.

Switch to ServiceNow ITSM
and transform your service delivery.

- Consolidate legacy tools into an easy-to-use cloud solution.
- Manage IT services from anywhere, on any device.
- Rapidly implement ITIL best practices with guided setup.
- Take control with integrated incident, problem, and change management.
- Deliver actionable insights with in-platform analytics.
- Improve productivity with mobile self-service.

Many organizations struggle with outdated ITSM due to their fear of migration, but cloud-based ITSM from ServiceNow makes the switch easier.

APPARO

Emmett was a veteran struggling with mental illness that hindered his ability to maintain employment and housing. Men's Shelter of Charlotte gave him the help he needed to get back on track and move into his new home.

Apparo and Ingersoll Rand are working with Men's Shelter of Charlotte to digitize client records, making it easier to update them and help more men, like Emmett, effectively find housing.

Kalli was an immigrant from Gambia, working two jobs and still fighting to make ends meet. Through Habitat for Humanity of Charlotte, he was able to secure a home for him and his son, Omar, relieving them of a major financial burden.

Apparo and Bank of America are working on a technology plan for Habitat for Humanity to improve their business processes, making it easier to provide housing for more people, like Kalli and Omar.

Pat was unable to pay her rent. On the brink of homelessness, she found Rowan Helping Ministries. There, she got the guidance she needed to maintain housing. She is now a regular volunteer.

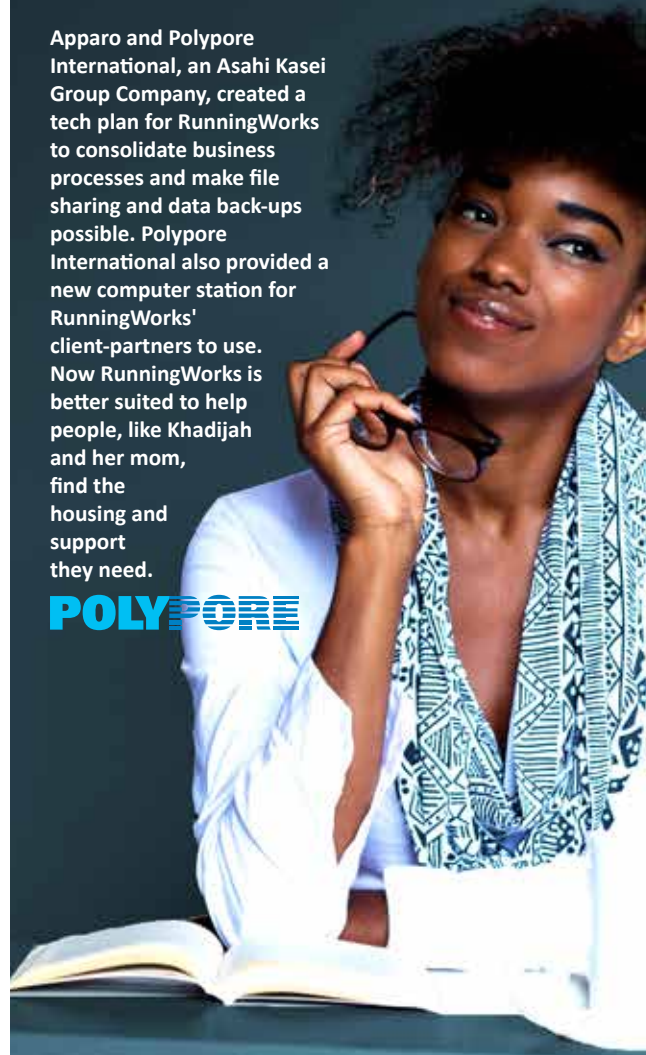

Apparo, Retail Business Services, an Ahold Delhaize USA company, and AAA Carolinas helped Rowan Helping Ministries map out their current business processes and a business plan for the next 1-3 years and decide upon a platform for storing client, volunteer and donor data. This support will streamline Rowan Helping Ministries' workflow so they can offer crisis assistance to more people, like Pat.

Khadijah and her mom were facing homelessness when one of her colleagues directed her to RunningWorks. There, Khadijah used the housing program to successfully acquire affordable housing. Khadijah says she doesn't know where she would be without RunningWorks.

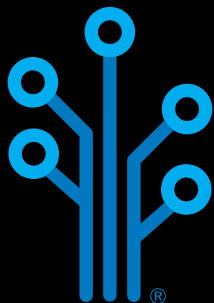

Apparo and Polypore International, an Asahi Kasei Group Company, created a tech plan for RunningWorks to consolidate business processes and make file sharing and data back-ups possible. Polypore International also provided a new computer station for RunningWorks' client-partners to use. Now RunningWorks is better suited to help people, like Khadijah and her mom, find the housing and support they need.
