

# ourBRIDGE for KIDS

COMMUNITY IMPACT PROJECT HIGHLIGHT

“Please know that the gifts of human capital and financial capital have made a big impact at ourBRIDGE. The implementation of Frontsheets is a game changer for our growing organization! - Mark Weber, Board Chair

## Supporting the Refugee and Immigrant Communities in Charlotte

ourBRIDGE for KIDS helps over 70 kids from refugee and immigrant families with out-of-school programming. ourBRIDGE has been operating in “start-up” mode but recognized how technology can support them in order to best utilize the opportunity of this new building, expand the number of children served and work more collaboratively with staff and volunteers. The team documented business processes, recommended changes and assisted ourBRIDGE in selecting the best application for the organization.

**Nonprofit Team:** Sil Ganzo, Natalie Cowart and Mark Weber

**Volunteer Team:** Joshua Gilstrap, Allyson Rosado, Pruthvi Desai and Christopher Nellis

### ANTICIPATED COMMUNITY IMPACT

- Mitigate risk in regards to manual data entry
- Increase revenue due to access to data trends
- Enable growth through enhanced data
- Increase operating efficiencies for staff

“The skills the Duke team shared with ourBRIDGE for KIDS during this project will make a lasting impact on the organization- Allison Grant, Apparo Facilitator
