

Camino Community Center

COMMUNITY IMPACT PROJECT 18 MONTH FOLLOW-UP SNAPSHOT
PROJECT DELIVERED BY EPHEBUS CONSULTING, SPONSORED BY NOVANT HEALTH

Equipping people to live healthy, hopeful and productive lives

Problem: Camino Community Center (CCC) leadership sought a business process assessment to help prepare for their organization's future growth.

Solution: Apparo matched CCC to a volunteer team from Ephesus Consulting to assess/document all of their business processes and provide prioritized recommendations for improvement.

Nonprofit Team: Rusty Price, Cheryl Moynihan, Wendy Pascul, Mark DeHaven, Darlene Heater

Volunteer Team: Holly Honeycutt, Chuck Stokes

Outcomes + Impact

Implementing the recommendations provided by Ephesus has helped CCC take advantage of growth opportunities, allowing them to expand significantly:

- **25% increase in individuals served across programs**
- **Tripled individuals served in the Clinic, with revenue more than quadrupling**
- **Doubled thrift store sales**

"If we had not received these recommendations, we would not have been positioned for our recent and upcoming growth. We would have been run over. Now we're not only ready, we're driving the growth process."

Rusty Price
Founder and Board President, Camino Community Center
