

Invaluable Volunteer Support

66 Being able to work in person with Dave provided new clarity. There is nothing like having someone become familiar with your database and reporting to help problem solve with you one-on-one. That attention was invaluable and will now allow me to address certain issues and edit some reports saving time and money on external support."

- Sara Davison, Real Estate Project Manager, Habitat Charlotte

Building strength, stability and self-reliance through shelter

Problem: Our Towns Habitat needed to transition their portfolio of loans to Habitat Charlotte, requiring specialized data transfer and database skills. Please note this project took place prior to the Our Towns/Charlotte Habitat merger.

Solution: Apparo matched Habitat Charlotte to a volunteer team from Charlotte Pipe and Foundry to help ensure a successful data transfer and associated required reporting adjustments.

Nonprofit Team: Sara Davison, Tom Holmes, Gerald Wright

Volunteer Team: Cam Faison, Dave Tompkins

Outcomes + Community Impact

- Improved service to Our Towns homeowners
- Decreased expenses driven by loans transitioned from outside vendor and minimized use of outsourced IT support
- Increased employee confidence and efficiency with reporting

Fulfilling Corporate Priorities through Service

66 Serving the community in which we work is a priority for Charlotte Pipe & Foundry. When Apparo has a nonprofit partner in need of support and we have a team with the skills to help, we jump on the opportunity to make positive change in Charlotte."

- Cam Faison, CIO, Charlotte Pipe & Foundry Company
