

RunningWorks

COMMUNITY IMPACT PROJECT SNAPSHOT
 DELIVERED BY POLYPORE
 G.A.I.N. - POWERED BY LOWE'S - TECH ASSESSMENT & PLAN

WHERE WE WANT TO BE

“Without G.A.I.N., we would have done our best to make improvements, but we would not be nearly where we want to be. The work we'll be able to accomplish in just the first 6 months in the G.A.I.N. program would take us years on our own.” - Matt Sharp, COO, RunningWorks

Providing case management and outreach services to promote healthy lifestyle habits for children and adults experiencing homelessness and poverty

Problem: RunningWorks leadership recognized that improved use of technology would free valuable time for them to focus on richer service to those in need.

Solution: RunningWorks applied for and was selected to participate in the inaugural G.A.I.N cohort. In this phase of their journey, they were matched with a volunteer team from Polypore who provided a detailed tech plan to improve their use of technology.

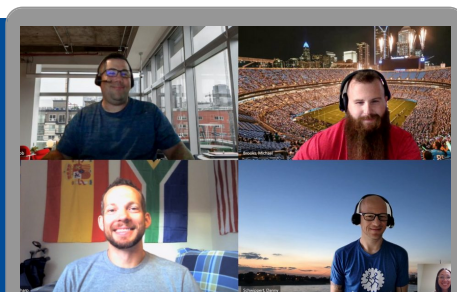

Nonprofit Team: Meredith Dolhare, Matt Sharp

Volunteer Team: Michael Brooks, Jacob Porter, Danny Schwippert (also RunningWorks Board member)

ANTICIPATED COMMUNITY IMPACT

- Time savings of 100+ hours/annually
- Improved fundraising, targeting 25% increase
- Richer service to their constituents in need, **delivering not only housing, but also more holistic support so that they can sustain and improve their lives even further**

VOLUNTEERING IS A GIFT

“It's a gift to be able to work with great people, especially those who help the homeless. When you get connected with the right people, with the right mindset, helping them do their job better is very rewarding.”

- Danny Schwippert, Director of Global IT Infrastructure and Operations at Polypore and RunningWorks Board Member

36 hours

Total time dedicated to this project
by the volunteers and Apparo
